Word from Board Chair

Thoughts from the FSBPT Annual Meeting –

Board member Deborah McDonald and I just returned from the FSBPT Annual Meeting in Albuquerque, New Mexico, November 2-4. It was a lively, engaging meeting in a beautiful setting, and we learned new ideas and were reminded of some concepts that had gone from our consciousness. It was very productive and enjoyable. Here are some things I learned.

Your Board is VERY proactive! Many of the items with which other state licensing boards are struggling, we have conquered. Dry needling, continuing competence, scope of practice issues, the national practitioner disciplinary database, and the PT Compact are all areas that the MSBPT Board led the way in tackling and resolving for our licensees. Congratulations to our Board staff and Board members on being diligent and innovative in developing solutions to these complicated issues.

However, nothing is ever perfect, and we aim to stay abreast or ahead of new advances to preserve our forward momentum. This meeting focused on evidence-based regulation and harm prevention. In an era where occupational licensure is under attack, we need to do the research and understand how our regulations are protecting the public and preventing harm to those we serve. What strategic processes should we put in place to ensure that the regulations we develop and enforce are not arbitrary barriers to licensure? Do they actually protect the public and further the growth of our profession? What are the best disciplinary actions to dispense in order to shape practice for the better in our state? What is the Board's role in educating and inspiring our licensees and the public? All of these are complicated questions, that for the most part, we are just beginning to ask and understand. Be assured that MSBPT will be at the table as these are discussed on the national and international level and will be ready to act as the answers become clear.

We'd love to hear your input on these ideas as well. Please stay in contact with us by phone or email, and you are always welcome to attend our meetings and voice your thoughts.

Cyndi K. Scott, PT, PhD, MBA

DIRECT ACCESS: Can You Do It?

Recently, it has come to the State Board's attention that there are questions surrounding whether or not physical therapy services can be conducted without a physician's order. Mississippi has direct access of a limited nature. The purpose of this article is to give physical therapists clarification as to what is and is not allowed based on the Mississippi Physical Therapy Practice Law §73-23-35(3). Reference for all queries is the *Mississippi State Board of Physical Therapy Regulations Governing Licensure of Physical Therapists and Physical Therapist Assistants*, particularly Part 3103, Chapter 3, Rule 3.1.

Queries:

1. *Can a physical therapist evaluate a patient without a physician's order? Yes. A physical therapist may evaluate or provide wellness fitness without a physician's referral.*
2. *Who can refer patients to physical therapists? Physician, Dentist, Osteopath, Podiatrist, Chiropractor, Physician Assistant, or Nurse Practitioner.*
3. *Can a physical therapist perform physical therapy services without a prescription or a referral? Yes, under the following circumstances: a. Children with a diagnosed developmental disability pursuant to the plan of care. b. As part of a home health care agency pursuant to the plan of care. c. To a patient in a nursing home pursuant to the plan of care.*

There are other circumstances under which physical therapy services without a prescription or a referral can be conducted.

1. *Related to conditioning or to providing education or activities in a wellness setting for the purpose of injury prevention, reduction of stress, or the promotion of fitness.*
2. *To an individual for a previously diagnosed condition for which physical therapy services are appropriate after informing the health care provider rendering the diagnosis. The diagnosis must have been made within the previous 180 days. The physical therapist shall provide the health care provider who rendered the diagnosis with a plan of care for physical therapy services within the first fifteen (15) days of physical therapy intervention.*

Physical therapists in the State of Mississippi do have direct access to a certain extent to evaluate and treat patients without a referral or a physician's order.

Hopefully this information will be helpful to you in your practice. Refer to the Mississippi State Board of Physical Therapy Regulations Governing Licensure of Physical Therapists and Physical Therapist Assistants, particularly Part 3103, Chapter 3, Rule, 3.1 for further information.

Douglas G. Roll, PT, OCS, FAAOMPT, CIDN
Board Certified Orthopedic Specialist
Certified Intramuscular Dry Needling

ATTENTION

Look what's available on our website at www.msbpt.ms.gov. Please visit the website frequently for updated information.

You can find:

- Application packet
- Continuing Education – approved courses are available for review
- Consumer Awareness and Protection
- Current Board members
- Dry Needling requirements
- How to file a complaint
- Information on how to get a course approved
- Licensure renewal information
- Links to APTA, MPTA, FSBPT and more
- List of current disciplinary actions
- Name/Address change forms and many more
- Practice Act and Rules and Regulations
- Scheduled Board meetings
- Verification of License – check to see if someone is licensed

POSITION STATEMENT

Physical Therapist Assistant Supervision for the MS State Board of Physical Therapy

The MS State Board of Physical Therapy is regularly and routinely asked to clarify supervisory standards of the physical therapist assistant by the physical therapist. This position statement interprets the requirements for supervision of the physical therapist assistant.

Scenario: Monday physical therapist visited nursing facility A where four (4) physical therapist assistants needed to be supervised on three new residents that the physical therapist had evaluated and placed on caseload. On Tuesday physical therapist evaluated four new home health patients and physical therapist was asked to supervise another physical therapist assistant to treat those patients. On Wednesday physical therapist goes to nursing facility B and is asked to supervise two more physical therapist assistants.

Query: Can the physical therapist supervise all of the physical therapist assistants in the above scenario?

Board Interpretation: This question, in various forms, has been posed to the Board. It is the opinion of the Board that under the MS Physical Therapy Law the supervising physical therapist of record may only supervise a total of four (4) physical therapist assistants. Physical therapist assistants may be at one or more facilities but the physical therapist of record may still only supervise a total of four physical therapist assistants. It is the responsibility of the physical therapist and the physical therapist assistant to document in the patient chart who the supervising physical therapist is for each date of service that care is rendered to the patient.

Reviewing the scenario above, the physical therapist would be supervising a total of eight physical therapist assistants in three different settings. This is prohibited by the MS Physical Therapy Law.

Query: What if one of the supervised physical therapist assistants becomes unavailable and a replacement physical therapist assistant takes over the case load, can the physical therapist be the supervising physical therapist for the replacement physical therapist assistant?

Board Interpretation: Yes. Under these circumstances the replacement physical therapist assistant must document in the patient chart who the supervising physical therapist is for each date of service that care is rendered to the patient. However, it is the responsibility of the physical therapist to ensure that he or she supervises no more than a total of four (4) physical therapist assistants and/or physical therapy students.

Good physical therapy requires good communication.

Revisions to the Dry Needling Requirements:

In its October 19, 2017 quarterly meeting, the Board voted on the documentation required for the approval of dry needling practice in Mississippi. If the physical therapist completed courses included on the Board's list of Approved Dry Needling Courses, the only requirement is the presentation of certificates of completion verifying a minimum of 50 hours of training.

If a physical therapist selects courses that do not appear on the list of Approved Dry Needling Courses, the therapist must provide the following course documentation to support completion of the requirements listed in the regulations in Part 3103, Rule 1.3 (c)D 1-2.

1. Complete the Therapist Prior Approval Dry Needling form for each course and include the \$50 fee
2. Description and overview of the course selected and completed by the physical therapist
3. Brochure or agenda that provides the number of hours of instruction/training
4. Educational course objectives
5. Resume or CV of instructor presenting the course
6. Certificate(s) of course completion

Please Note: All physical therapists must have received a letter of authorization from the Board prior to commencing the practice of dry needling for patient care.

New Licensees

The Board is pleased to welcome 216 new licensees to the physical therapy community in Mississippi. These licensees are either new graduates who have passed the NPTE and received their permanent licenses, or practitioners who were previously licensed in other states and have either moved to Mississippi or who live in other states but are practicing in Mississippi. To the new graduates, we offer our congratulations on both graduation and on passing the NPTE. This is a note worthy accomplishment. To the physical therapy practitioners who were licensed in other states, welcome to Mississippi!!

New Graduates Licensed as of Spring 2017

DID YOU KNOW?

- ❖ There are 1,991 physical therapists and 1,276 physical therapist assistants with active Mississippi licenses as of December 11, 2017.
- ❖ The next scheduled Board meeting is January 25, 2018. This meeting is open to the public.
- ❖ 126 licensees did not renew their licenses for the licensure period ending June 30, 2017.
- ❖ Teal is the national color chosen to represent the practice of physical therapy.
- ❖ Changing your employment address is as important as changing your mailing address. You can update your change of address/employment by logging into your profile. The address must be a complete address with telephone number.
- ❖ This office will no longer accept cash payments. We accept checks or money orders with mailed in items; we do accept payment by debit/credit cards when paying fees or by making a purchase online.
- ❖ The Board office will be closed on Monday, December 25, 2017 and Tuesday, December 26, 2017 for Christmas which is a legal state holiday.
- ❖ The Board office will be closed on Monday, January 1, 2018 for New Year's which is a legal state holiday.
- ❖ Holmes Community College graduated its first PTA class on December 7, 2017. Congratulations to the faculty and students for this accomplishment.

NON-RENEWED LICENSEES

Non-Renewed licenses for persons whose surnames begin with A-L and whose license expire in even-numbered years (2017)

The following did not renew their licenses and cannot practice physical therapy in the State of Mississippi as of July 1, 2017. Some licensees may have been reinstated since this newsletter went to press. Check the license verification at www.msbpt.ms.gov for any updates.

Notification of Change of Employment Information

Part of the application process for a physical therapist or a physical therapist assistant in Mississippi is to **provide the name of your employer and the physical address where you will be practicing**. However, if you are uncertain of your employment at the time you make application, it is important that you remember to notify the Mississippi State Board of Physical Therapy (MSBPT) employment information (name of company, physical address, and phone number) as soon as possible after you become employed.

Notification of change of employment is also important. If you make a transition from one employer in Mississippi to another within the state, or even to an employer out-of-state, it is requested that you keep us informed of the physical location where you are practicing for as long as you are licensed in Mississippi.

Licensees in Mississippi who work for a parent corporation that is located in another state need to provide to MSBPT the name of their practice site and physical address with local phone number. An example is as follows:

Employer: South Therapy Corp. @ Highland Manor Nursing Home
Address: 1124 Riverside Drive
City: Jackson State: Mississippi Zip: 39202
Phone: (601) 555-5555

It is acceptable for you to provide the name of your parent corporation, but the practice site and the physical location in Mississippi are what the Board needs for the purposes of random audits and for third party notices for those of you who have not released your home address.

Notification of new employment or a change in employment may be made in one of the following ways:

1. Due to the online application and renewal process, many licensees are already familiar with how to access their profile online. You may go into your profile and add or make changes in your employment information and also change your mailing address if needed. The data system date stamps such changes so that we have a record of when you made the change. If you have not accessed your profile previously, please call the office at (601) 352-2918 for instructions and a temporary password.
2. Go to www.msbt.ms.gov and select the **Forms** tab on the menu on the home page. Download the **Change of Name and Address** form, print it out, and complete the information in the employment section. Fax the form to (601) 352-2920.

Often a change of employment also means a change in residential (mailing) address. If that is the case, please update your mailing address at the same time, including email address and phone numbers.

We appreciate your help in keeping the database as up-to-date as possible.

**Mississippi State Board
of Physical Therapy
Post Office Box 55707
Jackson, MS 39296-5707**

Change of Home Address, Worksite or Name

It is the responsibility of licensees to provide the Board with written notification of address changes (home and/or work) no later than 30 days after such change is effective according to Part 3103 Rule 1.8. For a name change, a notarized copy of the legal document must accompany the request. Failure to keep your address or name change current will result in a \$25.00 fee for the cost of resending any correspondence or materials.
